## Work Experience

### kementerian Dalam Negeri RI, Jakarta

Apprenticeship

*August 2016 – October 2016*

Overall, the internship experience at the Ministry of Home Affairs was very valuable and provided me with a strong foundation for a career in government and public policy. I feel better prepared to face future challenges.

### Leven Cotton, Bandung

Marketplace, WFH

*October 2018 – October 2020*

I'm responsible for managing stores on marketplaces like Shopee and Tokopedia, including uploading products, updating stock, and managing product prices and descriptions. I also handle customer inquiries via chat and help complete orders. I ensure sales and order data are neatly organized in the marketplace system. This experience has helped me improve my customer communication skills, data management accuracy, and understanding of online sales operations.

### Sagara Technology, Bandung

Web Development

*January 2021 – December 2024*

I develop and maintain websites using technologies like HTML, CSS, and JavaScript, collaborating with a team of UI/UX and backend developers. I also debug, optimize websites for responsiveness, and use Git for collaboration and management.

## Education

### Malahayati Islamic School

vocational high school in computer and networking

*2015 – 2018*

have strong technical skills in hardware, software, and computer networks, as well as an understanding of network security. ready to pursue a career in various positions in the field of information technology, such as network technicians, system administrators, information security analysts and have soft skills such as communication and problem solving, which support their success in the world of work.

### Universitas Indraprasta PGRI,Jakarta

Bachelor of Computer Science

*2018 - 2025*

Graduated with honors, focused on software engineering, algorithms, and data structures.
